- ✓ VOB

\*MPEG-2 codec included

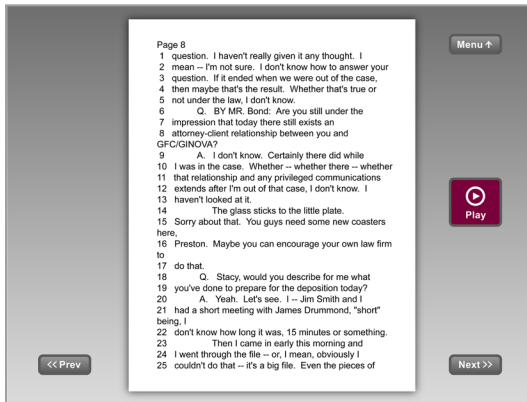

## REVIEW DEPOSITIONS ON TV

Now you can conveniently review video depositions and transcripts on a television using a standard DVD player. Reviewing depositions has never been so convenient when traveling, reviewing a case at home, or in any situation where a computer is unavailable.

DepoView DVD - Main Menu

DepoView DVD - View Transcript

## REVIEW TRANSCRIPTS ON TV OR PC

Utilizing patent-pending technology, DepoView DVD is the only product that displays the full transcript in addition to video footage on a TV.

By referencing the electronic transcript, you can easily determine which sections of the video you want to review and jump directly to that page.

## SUBTITLES

Using your DVD control, turn subtitles on or off when reviewing or presenting video.

DepoView DVD - Play Video

## INCLUDES DEPOVIEW SOFTWARE FOR PC

Each DepoView DVD includes a complimentary license of DepoView software that you can download at your convenience. DepoView software allows you to view videos, create video clips, search transcripts, and much more!

The screenshot shows the DepoView software interface. On the left is a 'Word Index' pane with a list of time-coded entries. The main window displays a transcript with a search bar and 'Clip' and 'Hi-lite' buttons. On the right is a video player showing a woman being interviewed, with a progress bar and playback controls. Callouts point to various features:

- Use the Word Index to Hyperlink to any word
- View all exhibits for this deposition
- Search any keyword in your transcript
- Create clips by highlighting testimony
- Click to view linked exhibit
- Click to edit and export clips to PowerPoint
- Just push **Play!**
- Take a snapshot of any frame in your video
- Present your video in full screen mode

## COMPATIBLE WITH POPULAR SOFTWARE

Easily share video files between a DepoView DVD and other popular litigation support programs such as inData TrialDirector®, AD Summation®, LiveNote® and more. Each DepoView DVD contains the following load files:

- › **.AMI** (AMICUS transcript)
- › **.CMS** (inData TrialDirector standard load file)
- › **.OLL** (inData TrialDirector exhibits load file)
- › **.MDB** (Sanction load file)
- › **.SBF** (AD Summation transcript and exhibit load file)
- › **.DII** (AD Summation load file)
- › **.PTF/.VID** (LiveNote load file)
- › **.EXH** (LiveNote exhibits load file)
- › **.PTS** (Timaro Post-Production Timestamp file)
- › **.TXT** (ASCII transcript)

**GET IT NOW!**

Ask your videographer or court reporter to deliver your next video deposition on a DepoView DVD. It's that simple.

**Request an Evaluation Copy**
