

WHATS NEW IN inData TrialDirector® 6.4 Trial Presentation Software

SMART® Integration

TrialDirector 6.4 showcases new SMART Board interactive whiteboard integration and tool customization. The TrialDirector Presentation Preferences now has a new SMART Board section. Within this area, you can assign annotation tools to a SMART Board Pen. You can also assign the SMART Board Eraser to the Remover tool.

Video from Multiplayer

TrialDirector now allows you to export multi-player workbooks and combine all of the clips & videos in the workbook into a single MPEG file.

MPEG-4 Support

Support for this video format enables you to play synchronized Digital Video Transcripts using the MPEG-4 (H.264) file format.

Whiteboard

Easily illustrate your point with the new TrialDirector whiteboard. This new feature allows you to draw diagrams and apply all of the existing annotation tools on a blank whiteboard canvas.

Laser Pointer

The Laser Pointer tool helps direct and guide the audience to key areas in the presentation
