

Picture your case simplified and organized. Every critical document, image, and video clip is displayed in proper chronological order. Now envision your presentation... you step easily through the entire sequence of events, you have every detail at your fingertips. You're experiencing the power of TimelineXpress.

Suddenly you – and the jury - will notice the significance of a few minutes, several months, or a year. Whether you're preparing for a deposition, trial, or organizing the events of your case, you'll experience a new insight and have the tools to deliver powerful arguments. TimelineXpress delivers simple, yet effective timelines.
